

Holden Woman's Club
Est. 1915

The **purpose of the Holden Woman's Club** is to promote community service through civic and cultural involvement. Members are women of the area who are drawn together by the desire to help our community within the framework of companionship. We work with departments in the town, with area merchants, local churches and service groups who aid members of the local area.

HWC has **sponsored events** for the community--- magicians and musical groups for children, community service evenings on self defense, emergency planning, and women's health, panel discussions on timely topics---reconstructing Main St., the town pool etc.

HWC recognizes a citizen of the year to highlight individuals who make Holden better.

HWC has made significant **donations** to:
